

Baby Bath Thermometer

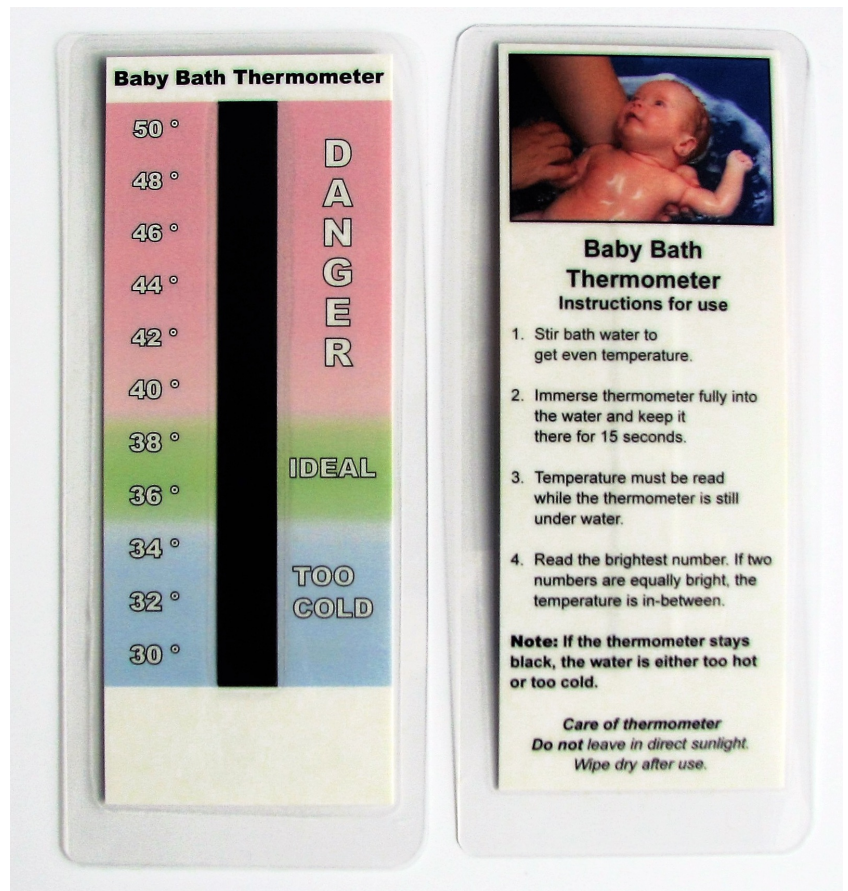

A great gift for the new mother

Safe
Accurate
Unbreakable
Durable
Easy to use

Enhances the understanding of the importance of the temperature of the baby bath. Comes with easy instructions on the rear and photo showing how to hold the baby safely.

The Baby Bath Thermometer is an ideal promotional item:

1. Available space for printing.
2. Long product life as the child when they get older, will insist of using it every time they have a bath.
3. Flat, lightweight and easy to mail in a standard letter.

Instructions: Stir water to get even temperature. Put thermometer fully into water and keep it there for 15 seconds. Temperature must be read while thermometer is still under water.

Reading: The liquid crystals light up when their respective temperatures are reached. Read the brightest number. If two numbers are equally bright, the temperature is in between.

Care of the thermometer:

Do not leave in direct sunshine. Wipe dry after use
